Core Competencies

Midwest Distribution LLC, a verified VOSB, has been providing quality steel, wire, stainless and aluminum products since 2009. Our diverse customer base includes material handling, logistics, OEM's, retail fixtures, nursery, dairy and closed loop distributors as well as US government agencies. We deliver quality products, dependable customer service and competitive pricing regardless of the quantities or custom solutions that may be required.

Midwest showcases a variety of custom and standard products on our website: midwestdistribution.us in order to share our capabilities and past experience in steel and aluminum fabrication. We are experts in turning challenges into realities!

- Midwest has two US based manufacturing partners with extensive experience in steel, stainless steel and aluminum fabricated products
- We are a one stop provider of material handling and other products that require quality and engineering excellence
- Detailed tooling and fixtures designed at our Indiana facility
- Products are maintained in our Indiana warehouse and logistic operations facility
- Midwest specializes in volume production to fit individual time frames
- Warranty on all products is standard for products we sell
